Summary

Full-stack Developer with 3+ years of experience building and scaling production web applications end to end, from React and Next.js interfaces to Node.js, Express, Django and .NET services. Delivered across e-commerce, HIPAA-regulated healthcare and micro-frontend platforms, contributing to technical architecture decisions, API integration and large-scale refactoring. Applies design patterns and SOLID principles, and takes products through to MVP on Firebase as a Backend-as-a-Service.

Experience

Frontend Developer Feb 2025 – Feb 2026
Alternova Inc. • Remote

- Built and shipped scalable features for client software products using React, React Native and Next.js, backed by Firebase as a Backend-as-a-Service.
- Integrated internal and third-party REST APIs and contributed to technical architecture decisions, driving refactoring work that improved code quality, maintainability and scalability across existing codebases.
- Implemented and tested AI-assisted development workflows adopted by the team to accelerate delivery.

Software Engineer Sep 2024 – Feb 2025
Online-SAT LLC • Remote

- Supported and extended backend services in Django and Node.js, keeping a HIPAA-compliant medical management platform stable and performant under the constraints of a regulated environment.
- Developed and scaled the platform end to end, delivering new features and modular, reusable components in Next.js and TypeScript.

Development Engineer Aug 2023 – Jan 2024
IT Agil • Remote

- Built backend services in .NET and Express.js and integrated them with Angular frontends, delivering full-stack features across multiple client projects.
- Developed proofs of concept validating the technical viability of new tools before team-wide adoption, focusing on API integration across the stack.

Frontend Developer Jul 2022 – Aug 2023
PRAGMA • Remote

- Developed e-commerce features across multiple client portals using Next.js, Gatsby and Angular, integrating APIs and the Contentful CMS through GraphQL.
- Maintained portals built on a micro-frontend architecture, resolving Salesforce tickets and shipping features for time-sensitive marketing campaigns.

Skills

Programming Languages: TypeScript, JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React, Next.js, Angular, React Native, Vite, Gatsby, Redux, Zustand, TanStack Query, Sass, Tailwind CSS, Micro-frontends

Backend & Data: Node.js, Express.js, Django, .NET, Firebase, MongoDB, SQL, REST APIs, GraphQL

Testing: Jest, Vitest, React Testing Library, Playwright

Architecture & Practices: SOLID principles, design patterns, API integration, Scrum, Kanban, Git, GitLab, AWS, AI-assisted development (Claude Code, Cursor, Codex, Gemini)

Languages

Spanish (Native) • English (B2, Professional Working Proficiency)

Education

Systems Engineering and Computer Science Jan 2017 – Sep 2022
Pontificia Universidad Javeriana Cali • Cali, Colombia
